The *Investor's Digest* index is a vital resource for readers who want to track advice on companies from past issues.

For serious investors, nothing could be better than a vast research library filled with back issues of *Investor's Digest*. Especially when it takes up no storage space at all.

That's exactly what subscribers to *Investor's Digest of Canada* and *adviceforinvestors.com* get. Back issues of the *Digest* are on our website, *adviceforinvestors.com*.

Using the *Investor's Digest* index, you can quickly put your finger on advice and information on a company you're following, whether it appeared in a brokerage report, article, column or in "What the Market Letters Say."

Here's what you do:

1. Select the company you want from the

index. Beside each company name are the page numbers of the articles in which the company has been discussed in *Investor's Digest*.
